H.F. Lenz Company Announces Partnership with ENERGY STAR®

February 27, 2009, Johnstown, Pennsylvania. H.F. Lenz Company today announced a fundamental commitment to protect the environment by becoming an ENERGY STAR® Partner. H.F. Lenz Company's voluntary partnership with the U.S. Environmental Protection Agency's ENERGY STAR® means that we will be working toward improved energy efficiency and performance; we believe that an organization-wide energy management approach will help us enhance our financial health and aid in preserving the environment for future generations.

In partnership with ENERGY STAR®, we will:

- Help companies and organizations with whom we work to implement appropriate energy efficiency measures
- Improve the energy efficiency of our buildings, in support of the ENERGY STAR® Challenge
- Encourage our staff and community to learn about the benefits of energy efficiency

H.F. Lenz Company is a Pennsylvania-based, 182-person firm headquartered in Johnstown, with branch offices in both Pittsburgh and Erie. We recently completed our fourth Energy Star certified building renovation. Our firm has a strong commitment to sustainable design, which is demonstrated, not only through our Energy Star® Partnership, but also through our extensive experience with the U.S. Green Building Council's LEED™ (Leadership in Energy and Environmental Design) experience. Our firm currently has 14 LEED™ Accredited Professionals on staff, and has completed 12 design projects, 14 commissioning projects, and eight projects

involving both design and commissioning services pending LEED™ Certification. H.F. Lenz Company was also recently ranked in the “Top 100 Green Design Firms” in the Country, by ENR Magazine (June 2008 edition).

ABOUT ENERGY STAR

ENERGY STAR® is a voluntary partnership between businesses, government and others united to protect our environment for future generations by changing to energy-efficient practices today. ENERGY STAR® works with more than 9,000 partners to improve the energy efficiency of products, homes, buildings and businesses. Businesses can use ENERGY STAR® to improve efficiency, enhance profits, and create a competitive advantage. In 2006 alone, ENERGY STAR® helped businesses and consumers save more than \$14 billion in energy costs while reducing global warming emissions equivalent to those from 25 million vehicles.

For more information about ENERGY STAR®, visit www.energystar.gov or call toll-free 1-888-STAR-YES.
