

H.F. Lenz Company Announces a New Ohio Office

Effective Friday, July 29, 2011, our Erie office staff will be relocated to our new office in Conneaut, Ohio.

The Conneaut office will provide us with a centralized location to better serve our current clients and expand our operations in Ohio and throughout the Central U.S. . This location also enables us to provide the same quality services to our existing long-term clients in the Erie area.

We are excited to become a part of the business community in Northeastern Ohio and invite you to stop by or contact our new office located at:

H.F. Lenz Company
322 State Street
Conneaut, OH 44030

Phone: 440-599-7800
Fax: 440-599-7801

For additional information on our new office, or on any of our services or projects, feel free to contact: George A. McMillan, IV, P.E. (mcmillan@hflenz.com), or John M. Dombrowski, P.E., HFDP, CPMP, LEED AP (jdombrowski@hflenz.com), in our Ohio Office.

H.F. Lenz Company has been providing engineering services for health care, education, corporate, government, and industrial clients throughout the country for over 65 years. Between our Johnstown Headquarters and Ohio and Pittsburgh branch offices, our staff consists of 175 personnel including 44 Professional Engineers licensed in a total of all 50 states and DC and 19 LEED-APs. Our services include:

- Mechanical Engineering
- Electrical Engineering
- Plumbing Engineering
- Life Safety / Fire Protection Engineering
- Communications Engineering
- Civil Engineering
- Structural Engineering
- Construction Phase Services
- GIS Services
- Commissioning Services
- LEED® Design Services
- Energy Star® Services
